

Regenerating 10,000 hectares of Amazon rainforest

Regenerative Amazonian Cacao Nibs support sustainability and fair trade:

per bag

In your hands is more than just a bag of Cacao — it's a gateway to a community-led initiative by TrueSight DAO.

This bag of Amazonian Regenerative cacao is sourced from farmers practicing agroforestry on previously degraded land in the Amazonian rainforest.

When you purchase this bag of regenerative cacao nibs, you contribute to a sustainable supply chain, fair wages for farmers, and carbon sequestration—making a tangible impact on the world around us.

If you are curious to find out more about our movement, ask your venue host when our next circle cacao is happening

Support our cause by making a purchase or a donation via the QR code below.
