## Saving Our Amazon, One Cacao at a Time

The Amazon rainforest faces increasing threats from deforestation as farmers, receiving only 6% payment from middlemen, are forced to adopt environmentally damaging practices such as soybean cultivation and cattle ranching. Our ceremonial cacao offers a sustainable alternative that empowers farmers and boosts local economies.

By providing a minimum fair payment of 34%, we encourage the use of regenerative farming methods on formerly degraded lands, helping to preserve the rainforest and its diverse ecosystem. When you choose our ceremonial cacao, you not only indulge in a rejuvenating experience but also contribute to safeguarding our planet's vital resources and supporting the livelihood of local farmers working to restore the balance in the Amazon.
