Dispute Explanation

I have a valid FasTrak account with Bay Area FasTrak (account #144764347), which is fully compatible statewide, including The Toll Roads. The vehicle involved (California license plate 8UIX798) is registered/linked to this account, and my transponder was properly mounted and in use during the trip(s) listed. No toll was deducted from my account, likely due to a technical read error. The account was active and in good standing at the time. Please verify with Bay Area FasTrak, transfer only the original toll amount(s) to my account (via transponder or plate match), and waive all penalties/fees, as this was unintentional (likely a first-time issue). Thank you.

Disputed Violations
