 You and 6 others 4 Comments

Average Investor

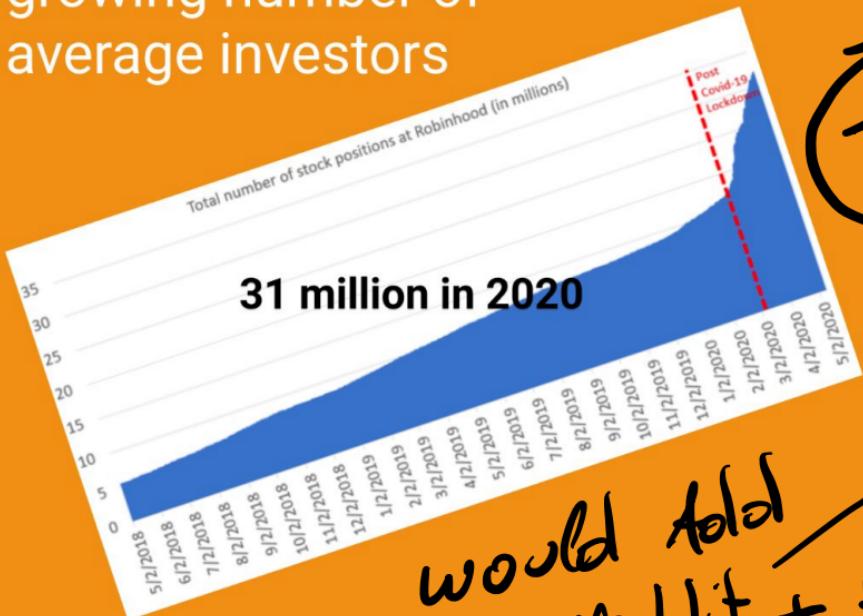

Marketing Materials

Hobbyist Quant

Growing Problem

Pressure build up

growing number of average investors

would add reddit + ADC + GameStop ...

Also a shift
from boring to
comuniqui

information pollution
equals no trust

use less slide

A big change creates
an opportunity

~~we're Verifiable Marketing~~
A Quality Filter for Fundraising OUR solution.

A woman with long red hair, resting her chin on her hand, looking thoughtful. To her right is a screenshot of a social media post by Gary S Goy. The post shows a profile picture of a man, the date December 20, 2021 at 10:42 AM, and a message: "good thing need time to develop. This is the result of my 10 years research and development of a powerful robot. 9h40m 2% strategy make 197.61". Below the message is a large red "VERIFIED" stamp. The post also includes a code "GMS123456", a timestamp "JLF 12-20 08:03 - 9h40m - Target Achieved 197.61", and a view count of "2 8:03 AM". At the bottom, it says "You and 6 others" and "4 Comments".

Average Investor

solve the trust issue with blockchain

Hobbyist Quant

~~Our Solution~~ HOW

The Most Exciting NFT Wars
in the Metaverse

Meets

For Financials Advice

Part 1: Player Versus Environment

Leveling up your reputation

How it works

Quant creates ~~+~~ prediction per day

why

13

Hobbyist Quant

creates
prediction

cost to push...
API

Asset name and
predicted price movement
direction

Bet at least 0.01

to create prediction

explore time lock encryption...

encrypts
the asset name and
price movement
with
private key

NFT and
holdout expiry date
are visible
<https://github.com/peter todd/>

How it works

Accuracy later validated on our blockchain

verify with
public key

Correct
prediction

OR

Wrong
prediction

accuracy level
of prediction
is visible

Potential investor
can trust

Hobbyist Quant

Earn up to 10,000X

bet for correct prediction

↑
would
let them choose

How it works

Public can check accuracy

choose
80% Accuracy Level
vs Market

How it works

Public can buy prediction

Hobbyist Quant
receives 99.7%

gives public key

price quoted

Happy Buyer
pays 100% of price quoted

DAO's Vault
charges 0.3% processing fee

Part 2: Player versus Player

DAO votes to amp up our excitement

How it works

A 7 days Game of Truth is declared when
we have surplus USDT

How it works

Quants can join the competition

100  to Play

The text "100" is followed by a yellow square icon containing a stylized orange "K" and "C" intertwined. To the right of the icon, the words "to Play" are written in a simple, sans-serif font.

Participating Quants

LEGAL ISSUES → check

A large, handwritten-style text "LEGAL ISSUES" is followed by a right-pointing arrow and the word "check" underlined twice with a thick black line.

How it works

Punter can bet on participating Quants

Participating Quants

56%

67%

76%

80%

How it works

Winners are declared at end of 7 days competition

How it works

Winnings airdropped at end of each 7 days competition

Winning Quant

Winning Punters

Part 3: God Mode

DAO votes you as GP in your own Hedge Fund

How it works

Winning Quant gets elected as a GP to a new fund

Payout

25% of profits

Source of fund

Surplus USDT from our Vault

Additional liquidity from Whale

Alternate Solutions

How we are different

Highly Differentiated

from other solutions to democratize hedge funds

Our Critical Paths

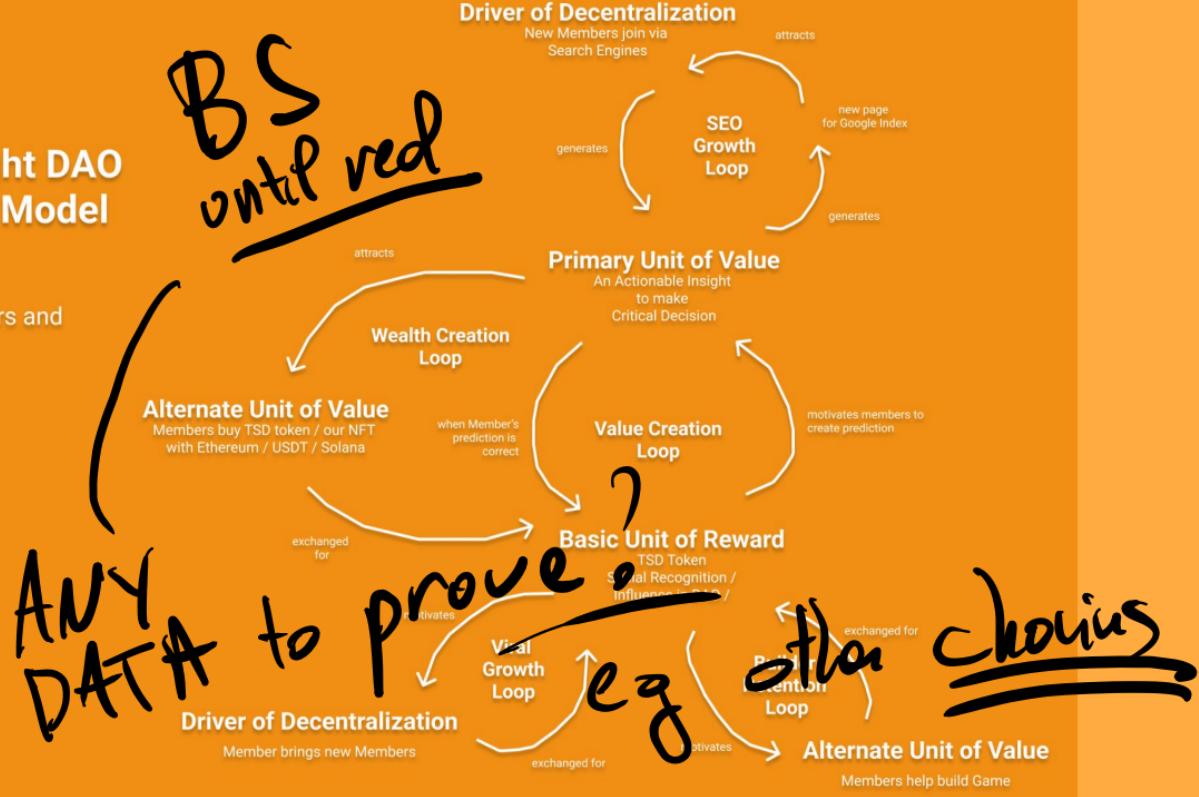

DAO Network Growth Model

TrueSight DAO Growth Model

How we will grow to
1 million DAO members and
generate wealth for
everyone

Initiative #1: Focus group

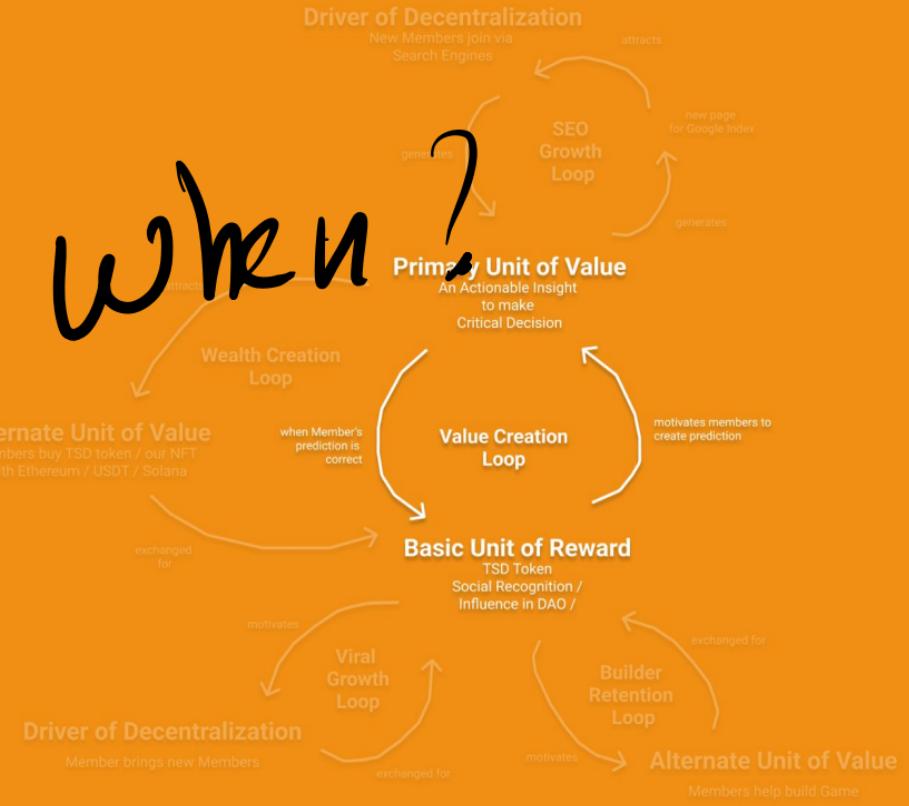

TrueSight DAO Focus Group Initiative

Primary Objective:

Prove the concept of the game is fun enough that people are willing to generate predictions when the game is ready

DAO members involved:

Fatoledo	pris
annecharbs	nelanco
garyjob ✨	Suhaimi Z
Garis	spoiledfruit
gbm	Eternald
slavaxyz	

Initiative #2: NFT minting

TrueSight DAO NFT Minting Initiative

Primary Objective:

Prove the concept of the game is fun enough that people are willing to prepay for our game

DAO members involved:

Where is the initial community?
How to grow it? Should be easier!

Tokenomics in Action

Game Play: Prisoner's Dilemma Part 1

When our DAO fails to form a Market with more than 100 tokens committed by players

Cksinno

		DAO Member A		
		predict correctly with 0.1 tokens	predict wrongly with 0.1 tokens	Did not participate
DAO Member B	predict correctly with 0.1 tokens	Member A gets 50.1 tokens Member B gets 50.1 tokens Our DAO gets diluted by 100 Tokens	Member A loses 0.1 tokens Member B gets 100.1 tokens Our DAO gets diluted by 100 Tokens	Member B gets 100.1 tokens Our DAO get diluted by 100 Tokens
	predict wrongly with 0.1 tokens	Member A gets 100.1 tokens Member B gets loses 0.1 tokens Our DAO gets diluted by 100 Tokens	Member A loses 0.1 tokens Member B loses 0.1 tokens Our DAO gets richer by 0.2 tokens	Member B loses 0.1 tokens Our DAO gets richer by 0.1 tokens
	Did not participate	Member A gets 100.1 tokens Our DAO gets diluted by 100 Tokens	Member A loses 0.1 tokens Our DAO gets richer by 0.1 tokens	Nothing Happens

Tokenomics in Action

Game Play: Prisoner's Dilemma Part 2

When our DAO successfully forms a Market with more than 100 tokens committed by each player

		DAO Member A	DAO Member B
		predict correctly with 100 tokens	predict wrongly with 100 tokens
DAO Member A	predict correctly with 100 tokens	Member A gets 150 tokens Member B gets 150 tokens Our DAO gets diluted by 100 Tokens	Member A loses 100 tokens Member B gets 200 tokens
	predict wrongly with 100 tokens	Member A gets 200 tokens Member B gets loses 100 tokens	Member A loses 100 tokens Member B loses 100 tokens Our DAO gets richer by 200 tokens

Tokenomics in Action

Meta Game Prisoner's Dilemma

Automated voting rights allocation which grants influence on how DAO resource gets allocated

DAO Member B

contributes

contributes

does not contribute

DAO Member A

Our DAO progresses

Member A and B gains tokens and maintains influence on DAO resource allocation

Our DAO progresses

Member B gains tokens and more influence on DAO resource allocation

Our DAO progresses

Member A gains tokens and more influence on DAO resource allocation

DAO does not progress
