Happy 2025 Karen!

It was really nice to meet you in person yesterday, here are the specific details requested yesterday during our conversation

### Certificate of Authenticity (attached)

- **cacao\_innovation\_center\_lab\_test.pdf**: Cacao Innovation Lab Test report where we processed the raw cacao into cacao tea
- **20241224\_Fazenda\_santa\_ana\_usda\_organic\_certificate.pdf**: The document that indicates the farm we source our cacao from is organically certified by USDA
- **20241224\_Fazenda\_santa\_ana\_usda\_organic\_certificate\_conformity.pdf**: The document that indicates the farm we source our cacao from is update to date with following procedures to maintain its USDA organic certification

### Prices

- USD\$44 / kg
- USD\$1.25 / ounce

### Supplies available

- We have a total of 80kg supplies available from this year's harvesting season which just ended in December 2024

### How to order

- Our cacao tea comes in bags of 10kg
- Right now we have 20KG in our community warehouse here in San Francisco, lead time from order to delivery is 7 calendar days
- 60kg is in our community warehouse in Brazil, lead time from order to delivery is 45 calendar days.

### About our community project

Agroverse an inspiring mission which unites a vibrant community of sustainability proponents dedicated to restoring the Amazon rainforest. Our mission is to source and distribute premium regenerative cacao cultivated by small-scale farmers employing traditional agroforestry practices on previously barren land, revitalizing areas that were once degraded by cattle ranching and soybean farming.

By supporting these farmers, we contribute to the health and resilience of the Amazon rainforest while promoting the wellbeing of local communities. Our mission aligns with global efforts to combat climate change, improve soil fertility, and sequester carbon, creating a lasting impact on our environment.

Join Agroverse's mission to restore the Amazon rainforest and empower local farmers by embracing regenerative cacao as a force for positive change. Together, we can create a more sustainable and equitable world.

This is our website <https://Agroverse.shop>

This is an instagram reel of one of the farmers that is actively restoring formerly barren land.

This is a collaboration we have with Green Gulch Zen Monastery over in Marin county

Will follow up with a call in 2 weeks to get feedback on the sampling. 😊🙏

Warm regards  
Gary
