Hi Graziela,

Just following up — any updates on the consolidated freighting costs, pickup time from Brazil, and the estimated arrival at the warehouse in San Francisco?

Please let me know when you have the finalized figures.

Thanks,
Gary

Hi Gary,

I have 90% of what I need. I just asked Brazil to reconfirm the dimensions and weights of the pallets.

There has been a lot of back and forth, and I want to be sure I am using the correct figures.

I see that we have 3 pallets.

If you have this information, that would be great. Otherwise I am just waiting on that from Brazil.

Thank you,
Graziela

Hi Graziela,

I think the dimensions we discussed before that Matheus acquired were 1 meter width x 1.2 meter length and 1 meter height for one pallet. Those were indicated by Omega to be not compliant

Are these the dimensions you are confirming for the 3 pallets?

I am not aware of the dimensions of the pallet that Omega services are planning to use

Let me know if you need anything else from my side.

Thanks 🙏
