Key event sources

Tracking product purchases from specific sources, such as Google Analytics or your website, delivers the metrics you need for actionable insights [Learn more about adding key event tracking](#) 

When you've added your sources, you can view purchase metrics on Product and Online store pages under Analytics in Merchant Center.

Auto-tagging

This must be turned on to track product purchases. [Learn more about auto-tagging](#) 

Add key event source

Key event source	Name	Attribution model	Lookback window
Google Analytics	Agroverse.shop (516287298)	Data driven	90 days
