Hey Gary,

It's great to hear from you. I would be happy to quote your compostable kraft mylar

Can you confirm if these are printed directly on the bag or a label?

Also, what quantities and how many SKUs would you be looking for?

Our design services are free to our clients, this can be a redesign of a current SKU or a completely new design.

Depends on your needs, we are happy to help however possible with the design

Let me know if you have any other questions

Best regards,

-Ben
