Good afternoon Mark,

Glad to have met you during the Natural products expo. I wanted to follow up on our conversation.

We have cacao beans from three farms in stock for this year. Here are more details.

Oscar Farm's

This farm, located in Bahia, Brazil, is 100 years old and the trees are 80 years old. Their's are Criolla varieties which have a rich European dark chocolate taste profile

La Do Sitio

This farm is located along the Xingu river in the Amazon rainforest. Paulo and his wife have been producing milk chocolate bars that have been. winning regional awards for multiple consecutive years in the Brazilian Amazon.

Their cacao has an initial smokey and tobacco profile which later opens up into a floual fruity note.
